The Kazbegi-Verkhny Lars border crossing point, the only official land connection between Georgia and Russia, reopened on Monday, 01-MAR-2010. The checkpoint had been closed since 2006.

Now it works every day from 01-MAR till 31-OCT 06:00-22:00(russian time), and in winter 07:00-19:00(russian time).

The crossing is for cars, not for pedestrians. No information about cycling crossing.
